

PG-DITISS – Session 15

Apache Web Server, Virtual Hosting & Squid Proxy – 40 MCQs

Q1. Apache is a:

- A. Database server
- B. Web server
- C. File server
- D. Mail server

Q2. Apache is mainly used to:

- A. Manage users
- B. Host websites
- C. Share files
- D. Print documents

Q3. Apache uses which protocol by default?

- A. FTP
- B. SSH
- C. HTTP
- D. SMTP

Q4. Which port does Apache use by default?

- A. 21
- B. 22
- C. 80
- D. 443

Q5. Virtual hosting allows:

- A. One website on one server
- B. Multiple websites on one server
- C. One user per server
- D. Multiple servers for one website

Q6. Apache security is used to:

- A. Increase speed
- B. Protect the web server
- C. Create users
- D. Configure disk

Q7. Squid is a:

- A. Web browser
- B. Web server
- C. Proxy server
- D. Database server

Q8. Squid proxy mainly improves:

- A. Graphics
- B. Storage
- C. Internet speed
- D. Boot time

Q9. Proxy server works as:

- A. Client
- B. Server
- C. Intermediate system
- D. Router

Q10. Squid is mostly used in:

- A. Home PCs
- B. Enterprise networks
- C. Gaming systems
- D. Mobile phones

Q11. Apache configuration files are usually stored in:

- A. /bin
- B. /etc
- C. /boot
- D. /home

Q12. Which file is commonly used to configure Apache on Linux?

- A. httpd.conf
- B. passwd
- C. shadow
- D. fstab

Q13. Virtual hosting helps in:

- A. Saving hardware cost
- B. Increasing disk size
- C. Improving graphics
- D. Speeding boot

Q14. Name-based virtual hosting means:

- A. Different IPs
- B. Same IP different domains
- C. Different servers
- D. One website

Q15. Apache security can be improved using:

- A. File permissions
- B. Authentication
- C. Access control
- D. All of the above

Q16. Which directive is used to define a virtual host?

- A.
- B.
- C.
- D.

Q17. Squid works as which type of proxy?

- A. Reverse proxy
- B. Forward proxy
- C. Transparent only
- D. Browser

Q18. Squid cache is used to:

- A. Store passwords
- B. Store web pages

- C. Store logs
- D. Store IPs

Q19. Proxy cache helps in:

- A. Slowing internet
- B. Saving bandwidth
- C. Errors
- D. Blocking DNS

Q20. Squid listens on which default port?

- A. 21
- B. 22
- C. 3128
- D. 8080

Q21. Apache authentication is used to:

- A. Restrict access
- B. Create users
- C. Start service
- D. Stop service

Q22. Which file controls Squid configuration?

- A. squid.conf
- B. proxy.conf
- C. httpd.conf
- D. network.conf

Q23. Proxy server hides:

- A. Server IP
- B. Client IP
- C. DNS
- D. Gateway

Q24. Which command restarts Apache service?

- A. service apache restart
- B. service httpd restart
- C. restart apache
- D. apache restart

Q25. Squid access control is defined using:

- A. Users
- B. ACL rules
- C. Permissions
- D. Kernel

Q26. Virtual hosting is useful when:

- A. One website
- B. Multiple websites
- C. FTP only
- D. Disk full

Q27. Which Apache feature separates website files?

- A. Port
- B. Directory structure
- C. User

D. Kernel

Q28. Apache supports which security feature?

- A. Authentication
- B. Disk encryption
- C. Firewall
- D. Routing

Q29. Reverse proxy mainly protects:

- A. Clients
- B. Servers
- C. Routers
- D. Switches

Q30. Squid improves performance by:

- A. Blocking users
- B. Caching content
- C. CPU usage
- D. Encryption

Q31. Squid is deployed on:

- A. Client
- B. Proxy server
- C. Database
- D. Printer

Q32. Apache virtual hosts use:

- A. IP only
- B. Port only
- C. Domain names
- D. Kernel

Q33. Which log records Apache access?

- A. error_log
- B. access_log
- C. boot.log
- D. syslog

Q34. Squid logging helps:

- A. Graphics
- B. Monitoring usage
- C. Disk
- D. Users

Q35. Proxy reduces bandwidth by:

- A. Compression
- B. Caching
- C. Blocking
- D. Limiting

Q36. Apache runs as:

- A. Foreground
- B. Background service
- C. Kernel
- D. User

Q37. Squid can be configured to:

- A. Allow all
- B. Block sites
- C. Control users
- D. All of these

Q38. After Squid config change restart:

- A. apache
- B. network
- C. squid
- D. ssh

Q39. Virtual hosting is used by:

- A. Hosting companies
- B. Single user
- C. Offline
- D. Embedded

Q40. Main benefit of Session 15 is:

- A. Gaming
- B. Web hosting & control
- C. Boot speed
- D. Disk
